

Mitel Subscription Datasheet

Cloud5's Mitel "Subscription" Hosted PBX Offering Powers Telecommunications Transformation

Cloud5 is simplifying the process of transforming your property's telecommunications systems to the cloud. Through our Mitel "subscription" offering, our customers can:

Tailor their communications' solutions based upon specific property needs, selecting from a range of Cloud5-supported Mitel applications.

Select a commercial framework that works best for them: choosing from a monthly subscription (OPEX), one-time payment (CAPEX), or combination (OPEX / CAPEX) investment option.

Enjoy enhanced support from Cloud5's team of hospitality telecommunications experts – engineering / design; project management; deployment; training; and sales – with an average of 25 years' industry experience.

Empower telecommunications teams to make frictionless changes, upgrades and additions as staffing and property needs fluctuate, without having to pay for unused (aka "spare") hardware or software.

The Cloud5 Advantage

- More cloud-based, hospitality voice systems installed than all other providers combined
- Experienced team with decades of hospitality telephony expertise
- Full turnkey voice solutions w/ minimal to no down time
