# The Hospitality IT Experts, Always At Your Service

Comprehensive IT Solutions & Services for the Modern Hotel

Technology is constantly evolving, and hotels must continually advance to keep up. Hotel systems are becoming more interconnected and Wi-Fi dependent, guest expectations are continuing to rise and the pace with which hotels need to evolve to stay fresh and compliant is speeding up. Hotels need a trusted, strategic resource to help them navigate their approach and manage their full IT stack. For the past 20 years, Cloud5 has worked with thousands of hotels to provide best-in-class technology, deep expertise, personalized service, and trusted solutions. Across some of the world's largest and most discerning brands, Cloud5 delivers:

- Expertly designed, installed and supported future-state networks.

- Powerful, flexible voice solutions.

- Voice reservations and guest relations that increase revenue and conversions.

- Managed Services that support all the technology-related components of a successful hotel operation - acting as a seamless extension of a property's IT department.

With technology that connects and skilled people who engage, we can help you deliver the service that your brand promises and your guests demand.

Simply Better Connections

END-TO-END HSIA SOLUTIONS

- **Internet** - Industry-leading Wi-Fi networks designed to meet the increasing bandwidth needs of the "always on" guest and staff.

- **Future-Ready Wi-Fi Infrastructure** - Support mobile and WIFI-enabled technologies and IoT solutions throughout a property, removing lag time and ensuring a positive guest experience.

- **Conference Internet Services** - Generate incremental revenue and deliver fast, reliable Wi-Fi services for special events and conferences with customized SSIDs, splash pages, and event coordinator monitoring and control.

VOICE

- **Hosted & On-Premise PBX** - Robust features and flexible solutions that grow with you.

- **Unbreakable Voice** - Never drop a call with the optimizing performance of SD-WAN plus seamless failover.

- **SIP Trunking** - Cut monthly costs and avoid POTS line rate hikes by moving voice traffic from traditional telecom carriers to the Internet.

- **Hosted Services** - Enhance voice services with Auto-Attendant, VoiceMail and Call Accounting functionality, and provide a migration path to a fully hosted environment.

MANAGED SERVICES

- **Managed Services** - A comprehensive package of 24/7 IT support, maintenance, and management solutions designed to support networks, workstations and servers and ensure seamless operations.

- **Managed Cybersecurity** - A flexible suite of security services that can be deployed independently of our Managed Services package, providing enhanced protection beyond the standard MSP engagement.

- **Professional Services** - Access to a team of experienced IT professionals and project managers who can help with a wide range of projects – from budget planning to hotel transitions to site surveys.

CONTACT CENTER

- **General Reservations** - Highly-trained live agents bring big call center functionality to any client, delivering superior customer service and booking rates 10 points higher than industry benchmarks.

- **Guest Relations** - We select agents based on ability to follow client guidelines, policy and structure while demonstrating empathy and understanding.

- **Digital Support** - Agents provide enterprise-wide support across multiple digital touchpoints, including email, chat & social media.

- **Near-Shore & Off-Shore Locations** - Operate from 4 State-of-the-Art Centers in Canada and South Africa.

- **Expert Agents** - 1000+ Contact Center staff deeply tenured agents averaging 3.5 years.
