

Cloud5 & G6

We're Still Here to Help:

Although the transition of Contact Center from Cloud5 to OYO is complete, we're still here to help G6 Properties with a variety of other services. In fact, **we're already engaged with hundreds of G6 properties across the country** - supporting them with SIP, PBX, e911 and HSIA services.

Already Working with Cloud5?

If we already support your SIP, PBX, E911 or HSIA, your relationship will continue with us directly. For support and service, you can reach us 24/7 at the numbers below:

Telco Support:	413 241 2977
HSIA Staff Support:	800 563 8340
HSIA Guest Support:	877 665 1288

Looking for a New Provider?

Cloud5 provides the following services to G6 properties across the country:

SIP

Cloud5's SIP trunking services connect your current PBX infrastructure to the Internet – allowing you to replace your traditional carrier and save.

E911

Cloud5's E911 solution provides emergency routing services over SIP for E911 compliance of RAY BAUM's Act and Kari's law.

PBX Repair

Our experts can repair a wide variety of legacy PBX systems, including: Avaya, ComXChange, Hitachi, iCharge, Metropolis, MITEL, PhoneSuite, Tiger and others.

HSIA

For properties upgrading their networks, replacing end-of-life equipment or seeking better network support, Cloud5 offers the most reliable, cost-effective HSIA solutions in the industry.

PBX Replacement

Our PBX program for G6 properties includes a Mitel SMB PBX controller—ideal for properties with 150 rooms or fewer—plus one year of SLA support.
